ABOUT ME

When I finished high school, I discovered programming as a way to do what I like the most, which is to solve problems. That's why I decided to study in Plataforma 5, which gave me the ability to manage the PERN stack and improve my soft skills. I am looking for my first job in the It world and to be able to contribute to the development of projects, both on the technical side and on the social side.

SKILLS

- JAVASCRIPT
- HTML
- CSS
- REACT
- REDUX
- MATERIAL UI
- SEQUELIZE
